WELCOME TO MY PORTFOLIO

Photographer, filmmaker & mechanical engineering student. I capture stories through a lens and direct them on screen — from cinematic short films to street photography, all rooted in a love for visual storytelling.

ABOUT ME

Engineering student by day, visual storyteller by night. My work spans photography, film direction, robotics, AR development, and computer vision — all driven by curiosity and a need to create things that didn't exist before.

CREATIVE WORK

Photography —
@captured_lives

Street, portrait, and conceptual photography. Dark, moody visual language with a focus on light, shadow, and human form. Active on Instagram as @captured_lives.

PARADOX — **Sci-Fi Thriller**

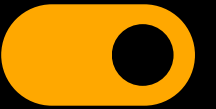

Directed a sci-fi short film exploring time-loop narratives. Reality fractures across each iteration. Post-produced in DaVinci Resolve with a cinematic grade.

BREW DEMON — **Horror Thriller**

Directed a horror thriller short film. Atmospheric, visceral, and deliberately unsettling — something ancient stirs in the dark, and what begins as ritual ends in reckoning.

FILM PORTFOLIO

Two original short films — a sci-fi thriller and a horror thriller — both written, directed, and post-produced by Devi Sri Akhil.

MY SHORT FILMS

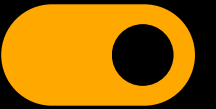

PARADOX

Sci-Fi Thriller. A time-loop narrative where cause and effect collapse. Directed, shot, and post-produced by Devi Sri Akhil using DaVinci Resolve.

BREW DEMON

Horror Thriller. Ancient dread, ritual gone wrong, and an atmosphere built to unsettle. Written and directed by Devi Sri Akhil.
